

These are not normal times!

INTRODUCING ALLERAIR'S 5000 SENTINEL CGWD CHEMICAL & GERMICIDAL AIR PURIFIER

MINIMIZE YOUR RISK! BREATHE CLEAN AIR AT ALL TIMES

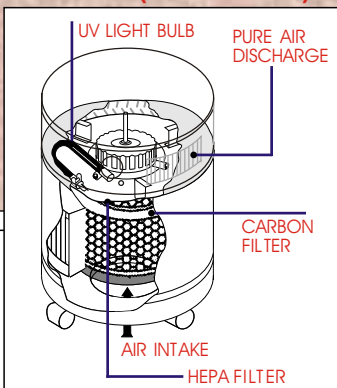

Over the years AllerAir Industries Inc. Has earned a reputation as an innovative company always ready to listen to the needs of its customers. In its quest to deliver ultimate customer satisfaction, AllerAir has made it its specialty to make custom-built air purifiers and air purification systems for very specific needs and applications. In addition, AllerAir manages to provide its customers with over 85 different models.

AllerAir makes and sells its air purification products worldwide. Its products can be found in some of the world's finest universities, in some of the most reputable medical facilities in the world, in many governmental and para-governmental institutions, as well as in numerous industries. AllerAir air purifiers are widely prescribed by respiratory specialists world wide to relieve symptoms for patients suffering from respiratory distress.

AllerAir has contributed its expertise and products in conjunction with military exercises and activities of the United States Army and other countries. AllerAir products have been put to uses in the military institutions to improve air quality in the buildings housing them. In various bases overseas military have bought AllerAir Air Purifiers to give their families protection from toxic air environments.

This brings us to the AllerAir 5000 SENTINEL CGWD. The 5000 SENTINEL has a host of incorporated features commonly ordered as options on AllerAir units destined for hostile environments in order to reduce potent airborne contaminants.

UV Unit (Ultra Violet)

Maintenance:
