Model 7000 Water Distiller

High Output Water Distillers 8 and 12 Gallon Units

From Natural Solutions Environmental, Inc.

Natural Solutions Presents
Model 7000
High Output Water Distiller

Natural Solutions Environmental, Inc. is please to provide a Automatic High Output Water Distilling unit, the Model 7000!

The Model 7000 is available in 2 storage capacities (8 or 12 gallon). The model 7000 is for families of 3 or more, or for the convenience of purified water on tap. With one simple water connection, this **fully automatic, high output water distiller** produces up to **9 gallons in 24 hours**. With this plentiful supply, you never have to worry about running out of purified water.

The sleek, innovative design may be installed right in your kitchen. It fits easily into small areas. The Model 7000 may also be located in a utility room, basement or other remote area.

The Model 7000 has a unique round, **seamless, stainless steel boiling tank that removes for easy cleaning and access**. Cleaning takes little effort. Simply remove, dump the residue and replace.

Thanks to the Patented Gravity Feed System, the Model 7000 will not malfunction and cause boil down or boil over like the competition's old-fashioned float system. The 7000 is designed for greater safety and reliability.

The Model 7000 Series distillers feature an **Optional Remote Faucet Pump System** that will pump water to an auxiliary tap and to your icemaker for crystal clear ice cubes.
